

1. Right-click on the Domain and select **Display Remote Desktop Client (Multi Install)**.

2. Select the **Additional** tab.

3. Place checkmarks in the **Install Remote Viewing Service** and **Install Remote Utils Service**. (Note: The Utilities service is only used for the Chat and Performance Monitor feature. If neither of these features are going to be used, there is no need to install this service).

4. Click **Install**.
